Camp Village Cabins

Modern bunkhouse style duplex buildings.

Each building contains two cabins. As one enters the building there is a common area that leads to two separate bunk areas, one on the left and one on the right. Off each bunk area is a bathroom with three sinks, two toilets, and two showers. Each bunk area has an air conditioner/heating unit.

Each side of the cabins will sleep at least 5 using only bottom bunks, or at least nine using top and bottom bunks.
