Come Canoe With Us Down the Tennessee River

Canoeing Trips:

**July 4-9 or
July 25-30**

A **canoe trip** is flexible. We will float lazily down the river, chilling with your friends. We will struggle with the challenges of the river, building a fire, cooking outdoors, learning to tie knots, working together to keep the canoe going straight and team building. These challenges can bring you closer or make you want to start whacking each other with your paddle. Whatever happens we will help you work through it based on God's Word. We have all been struggling with the issues around Covid 19. This is a great opportunity to learn how to live for God when life doesn't make sense. Doing this with friends and godly leaders in a safe environment is a great way to grow.
